

FRINGE 2023

11–15 September | University of Leeds | Leeds, United Kingdom

Exhibitor brochure

FRINGE 2023 Background

The European Space Agency is co-organising together with the University of Leeds, the 12th International Workshop on “Advances in the Science and Applications of SAR Interferometry and Sentinel-1 InSAR” – FRINGE 2023. The workshop will take place at the University of Leeds, UK, from 11 to 15 September 2023.

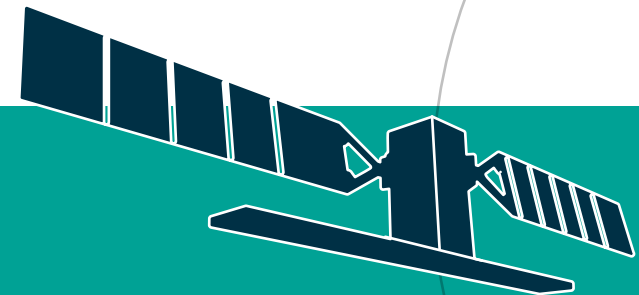

Conference themes

Technical areas:

- ◆ Atmosphere, Ionosphere & InSAR Meteorology
- ◆ Advances in InSAR theory & methodological innovations
- ◆ Bistatic Interferometry
- ◆ Analysis of intensity and coherence time-series
- ◆ Polarimetric Interferometry & Tomography
- ◆ Future Missions
- ◆ New Space InSAR
- ◆ SAR/InSAR processing environments

Thematic areas:

- ◆ Earthquakes & tectonics / seismic hazards
- ◆ Ice & Snow
- ◆ InSAR for the built environment / infrastructure monitoring
- ◆ Volcanoes / volcanic hazards
- ◆ Subsidence monitoring
- ◆ Landslides, sinkholes & related hazards
- ◆ Land-Cover and Vegetation Mapping
- ◆ DEMs

Gold Package

Exhibition booth size 2x6 sqm (or 3x4 sqm)

Including:

Electrical sockets

6ft long table

2 chairs

Tablecloth

€ 1700

Prices might be subject to VAT

**graphics are not included and present an additional cost*

Silver package

Exhibition booth size 2x3 sqm

Including:

Electrical sockets

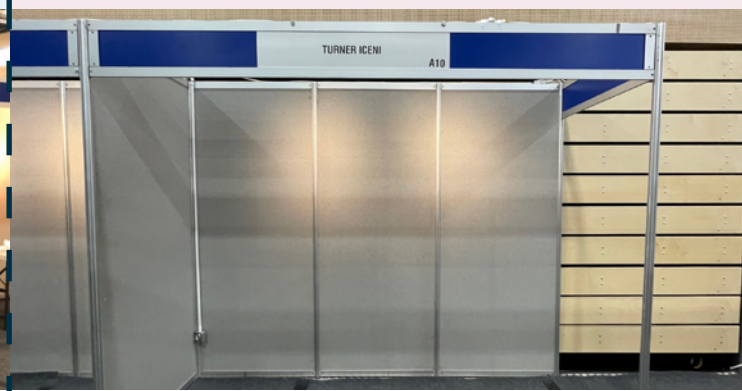

4ft trestle table

2x high barstools

€ 850

Prices might be subject to VAT

**graphics are not included and present an additional cost*

Extra Customisation

(not included in previous packages)

The event partner JNM offers optional extras which exhibitors can purchase / hire directly from JNM.

Tensile fabric graphics

Digi-infill graphics

Platform and carpet

Shelving and storage

of Roger Stevens**

Printed signage with design of sponsor logos

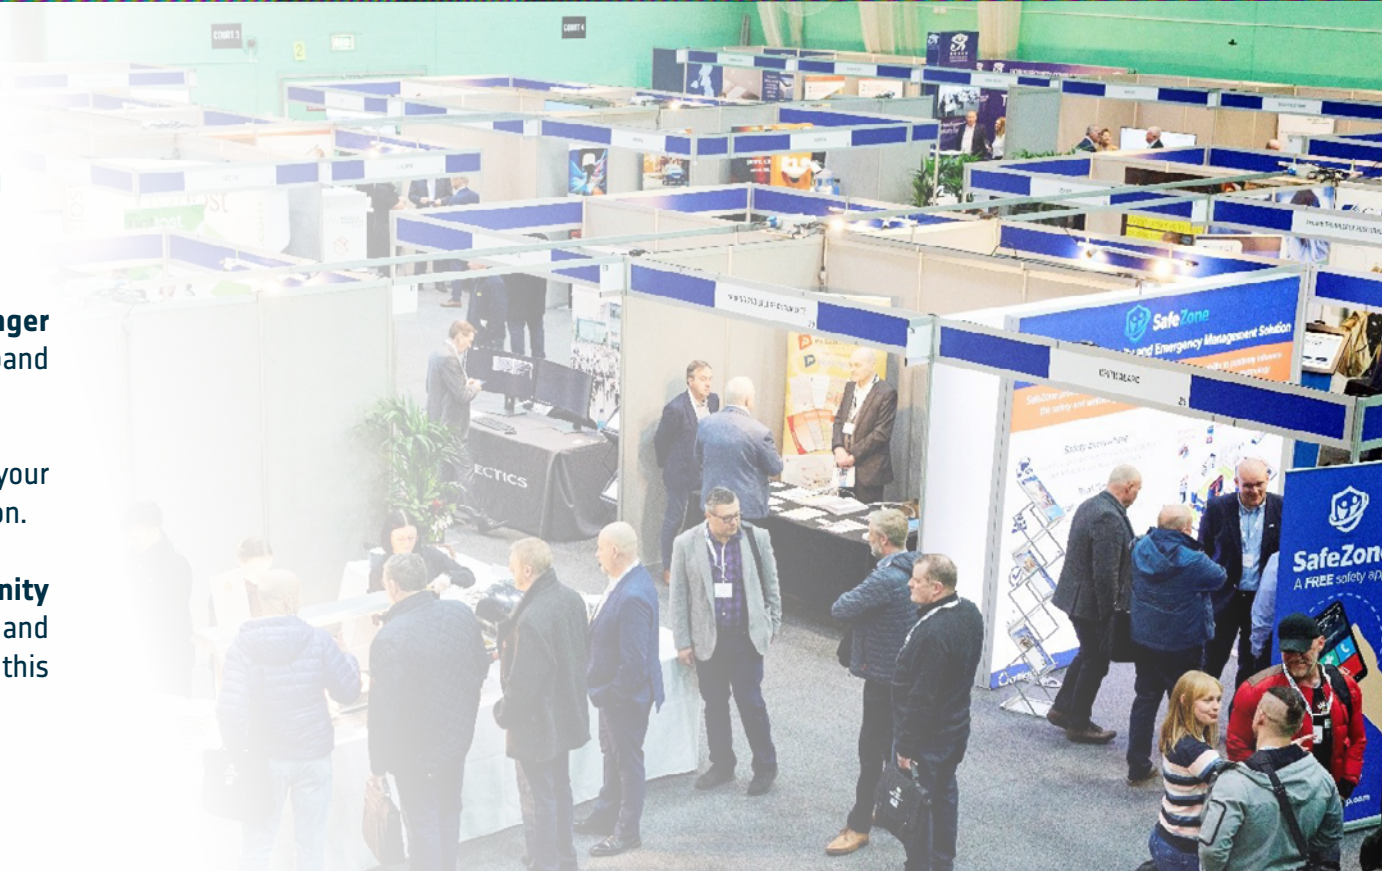

Logo on digital flyer

Sponsor logos page at the end of the booklet

BY SPONSORING OR EXHIBITING AT FRINGE 2023 YOU WILL:

- ◆ **Increase brand awareness and develop stronger relationships** - You will connect with people who can expand your market.
- ◆ **Generate better leads** - You will be able to talk to your target market representatives all gathered at one location.
- ◆ **Represent your brand in the European space community** - Over 700 participants from the SAR Interferometry and Sentinel-1 InSAR field are expected to take part to this year's edition.
